

CORONA VIRUS

We're all stuck at home because of this virus,

Missing our family and friends.

We look after the elderly, the vulnerable and show them kindness,
long after this virus ends.

Mommies and Daddies are doing their best at home-schooling,
We have been doing Maths and English, but my favorite is painting.

Playing in the garden has been lots of fun,

Bouncing on the trampoline in the sun.

We thank and appreciate key workers and the [NHS](#),

For working so hard, looking after our sick and doing their best.

When all this is over, and we've kicked the butt of corona

Everyone will rejoice and celebrate,

There will be love and no hate.

We all came together to beat COVID

Did you stay at home? I did.

THE END

By Evie McIntyre
