Gender Pay Gap Report

FirstPort Gender Pay Gap Report

All UK companies with over 250 employees are required to report on their gender pay gap. It's important we understand gender imbalance in our organisation, the diversity of our workforce is important to us.

Gender pay gap reporting measures the difference in the average pay of men and women in an organisation, regardless of the role they carry out. A gender pay gap can be driven by the number of men and women in different roles. Gender pay gap reporting is different from equal pay. We are confident that we offer equal pay for equal work throughout organisation.

Snapshot date, 5 April 2022

FirstPort Retirement

FirstPort Retirement employees are field or sitebased, providing property management services across our retirement developments. There is a high proportion of women in this area of our business.

We have a small number of bonus schemes available to employees in Retirement.

This report relates to the period with a snapshot of April 2022.

In 2022, we launched new management and leadership development programmes across the organisation. The goal is to identify and develop pathways for current and future leaders to excel. As we move forward, we hope that this investment in our talent will grow our future women leaders from within.

Michael Venus
Chief People Officer
